

# Dialogue on Synergies H2020/ESIF

Meet & Exchange Workshop  
29 November 2016,

[pascal.newton@recherche.gouv.fr](mailto:pascal.newton@recherche.gouv.fr)

# What has been done in France ?

## About the period 2007-2013

- Online survey of R&I ESIF (mainly ERDF) beneficiaries
- 30 answers (mainly from Universities and RTO)

- Geographic and temporal instability of rules
- Complex justification of expenses
- Technological platform costs

**= Better harmonization of rules with H2020**

# What has been done in France ?

## About the current period 2014-2020

### Acculturation

- Presentations of H2020 to Managing authorities and people involved in the ESIF implementation
- Presentations of ESIF and Synergies to NCPs, to R&I Stakeholders

### Harmonization

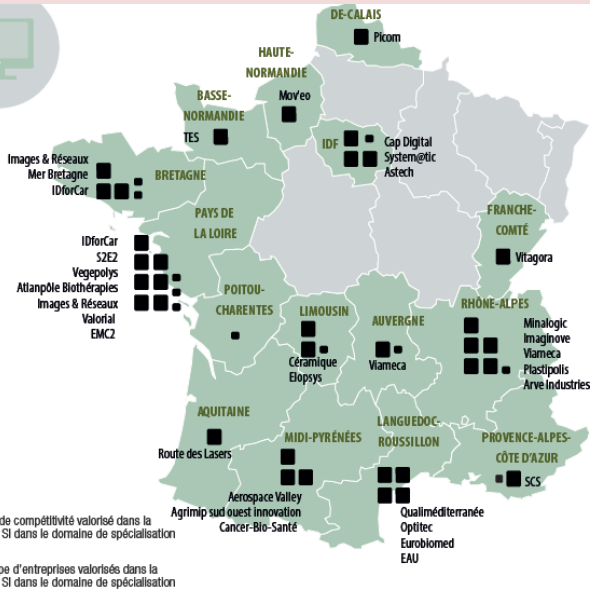

- Working meetings to strengthen participation of private companies in Interreg
- Study on Simplified cost options

# What has been done in France ?

# What has been done in France ?

## About the current period 2014-2020

### Best practices

- National Seminar on Synergies
  - > Mapping of examples of synergies in France

### Participation data

- Data corrected from headquarter effect

# What has been done in France ?

## About the period post-2020

- Mid-term evaluation of H2020 and ESIF
  - => Better harmonization of rules (Simplified cost options, state aids, justification of expenses)
- Synergies should be organized at the beginning of discussion on the future regulations :
  - > Better communication between DG RTD and DG Regio
  - > Better communication between authorities
  - > Better communication between different MS
